

EIGHTEEN railroad companies, capital \$45,900,000, were incorporated in Ohio last year.

WHEAT crop of Indiana this year is 9,000,000 bushels more than in 1883; corn crop has only held its own.

In 1883 Indiana scratched \$185,902,322 out of the ground, and wrought in her factories \$160,527,282 worth of merchandise.

More than one hundred persons have died in the mountain counties of Kentucky of the deadly flux. Rain has now removed the cause of the disease.

Among the first things when the Democrats get to Washington will be to find the nest of Hovington. The Republicans have been signally unsuccessful in hunt of this kind.

The collections of internal revenue the first four months of the fiscal year ending June 30, 1884, were \$94,375,670; the same period the previous fiscal year, \$90,993,740; decrease, \$3,381,929.

GENERAL GRANT has written a letter which says that under no circumstances will he accept a pension. In deference to his wishes the bill allowing him a pension has been withdrawn from Congress.

Three genuine Indians of the Choctaw nation have entered the preparatory department of Centre College and will take an entire collegiate course. Their object is to become thoroughly conversant with the English language and to attain in their nation a higher standard of educational facilities.

GENERAL LOGAN is credited with the assertion in New York that if Mr. Blaine's August speech had been delivered ten days before the election the result would have been different, and this is said to have occurred to both the Republican candidates before the election, but they were overruled by the national committee.

The Uses and Beauties of Silk. Probably there is more silk worn in America than in any other civilized country, and this cheapening of the well-loved fabric will meet with much appreciation in the American market.

At present, there are in Lyons 30,000 workmen out of employment, it may be supposed that the silk manufacturers are doing very little work. In consequence of an over supply during the last few years the silk market is overstocked, and there is yet a large surplus on the French market. Silk fabrics must therefore be cheap.

Some most beautiful silk art fabrics have been woven the past year for New York artists and interior decorators, which certainly do not detract from the skill of American silk weavers. There is no reason for fearing that there is a large glut on imported silk goods, while those of American manufacture should command as high a price as those of France and Italy.

The beautiful specimens of silk manufactured in America will compare very favorably with much of that from the French looms. Within the past few years there has been very rapid progress made in American silk manufacture, and when one compares the comparatively crude finish of the first silks manufactured in this country with the silks of the present time, the difference is quite astounding.

Notes for the Stomach to Crack. Now is the time when the game is worth, not only the candle, but the broiler.

It is surmised that terrapin-eaters are the ones who talk most about its threatened extinction.

Only unsophisticated people make chicken salad of lettuce when the market offers celery hearts.

Froggie croquettes are the latest thing in that line. They taste very much like chicken croquettes.

Ice cream at dinner parties is obsolete. Fashionable people say it is like boarding house Sunday dinner.

Soy, who in his day was a great cook used to say there are few soups that could not be improved by a dash of wine.

California supplies delicious jam and jelly made from the white grape that now grow so abundantly in that wonderful country.

Vegetarianism in England has been carried to almost ridiculous extremes, and has been properly called gastronomic crankism.

Victor Hugo eats dried herring and crackers every night just before going to bed under the impression the meal assists digestion.

Most hotel cooks seem to think no croquette can be complete without ham, which is a mistake of very large gastronomic proportion.

POLITICAL POINTS.

NEW YORK DEBATE.—The Tribune this morning says: It was ascertained pretty definitely yesterday what line of action has been decided upon by President Arthur's friends with reference to New York Senator Davis. At the conference in Washington Mr. Arthur persisted in retaining the position, all along intended to him, that he would not enter into a struggle or contest for the place. Thereupon he was asked what his action would be in the event that a majority of the Republican members of the Assembly should clearly show their preference for him as a candidate. His reply is understood to have been such that Mr. Arthur's friends have taken no undertaking to make at once a thorough canvass of the Assembly to see exactly what strength the President would have in case he should become a candidate. The canvass shows a fair probability of the President's success by the canvass. They confidently expect him to permit the use of his name.

DAVIS FOR POSTMASTER GENERAL.—WHEELING, W. Va., Dec. 9.—It was authoritatively given out to-day by one of ex-Senator Davis' retainers that Mr. Davis is to be Postmaster General under Cleveland. This is not an unimportant cabinet position, and a certain amount of credit is given to the withdrawal of his claim to the nomination for the Vice Presidency at Chicago at the instance of Manning, William A. Wallace and others of Cleveland. It is also understood that the nomination of Hendricks, and this nomination for Postmaster General is his reward. Senator Davis has 7,000 persons present, and at least 2,000 were unable to gain admission. The meeting was the largest ever presided over by Mr. Murphy.

CONGRESSIONAL.—SENATE. WASHINGTON, Dec. 9.—The House bill making temporary provision for the naval service was read for the first time and referred to the Appropriation Committee to-day. Mr. Mitchell (Penn.) read an extract from a letter received from General Grant in reference to the bill introduced by Mr. Mitchell providing a pension for General Grant. The letter stated that General Grant asks him to withdraw the bill as under no circumstances will he accept it. Mr. Mitchell explained the case in regard to the bill. The Committee on Pensions was then discharged from further consideration of the bill.

MR. TOWNSHEND introduces a joint resolution proposing an amendment to the constitution providing that treaties be made by and with the consent of the House as well as by the Senate. Mr. Ellis introduced a bill appropriating \$50,000 for a monument to the officers and men who perished in the discharge of their duty on the Greatly expected. On motion of Mr. Cox (N. Y.) the House took up and passed the joint resolution excepting the names of the officers and men of the Bureau from July 1 until money now appropriated be expended.

MR. TURNER (Ind.) in absence of Ranney (Mass.) representing the minority, would not call up as the special order for to-day, the Pool-Skinner election case, for the House proceeded to consider the Reagan Interstate Commerce Bill.

MR. FINDLAY (Md.) addressed the House favoring the bill of the committee as substitute. The latter then passed the bill. Mr. O'Neill (Penn.) followed.

WOMAN'S SUFFRAGE.

The Premier of Canada waited Upon by Members of the Party.

NEW YORK, Dec. 9.—A delegation representing the Woman's Suffrage party called upon Sir John A. Macdonald, Prime Minister of Canada, at Hotel Brunswick to-day. In behalf of the party they thanked him for incorporating a woman's suffrage plank in the platform of the Canadian Franchise Bill, and tendered him a public recognition. Sir John replied that as he was to leave the city to-night he would be unable to accept. He hoped to be able to do so at some future date. In answer to inquiries made by members of the delegation, he stated that the woman's suffrage clause in his bill had been received with growing favor. He had no doubts of the success of the movement. He had found Woman's Suffrage a movement greatly advanced in England. The Conservative party was practically a unit in its support.

MISSING MRS. FARRELL.

Probably Robbed, Murdered and the Body Concealed.

PALMYRA, N. Y., Dec. 9.—Never have the people of this village been in such a state of excitement as they are at the present time. The excitement is due to the sudden and mysterious disappearance of Mrs. Thomas Farrell, a wealthy lady of Palmyra, from her home about two weeks ago. Nothing has been heard of her since she disappeared, and the suspicion that she has been murdered is becoming more and more firmly fixed in the minds of the people. Hundreds of citizens have searched through woods and secluded places in this vicinity day after day to find the body of the missing lady. It is now thought that Mrs. Farrell was robbed of a large amount of money and jewelry which she had about her person and then murdered and her body concealed. Detective have been at work upon the case for over ten days, and as yet not the least clue has been obtained leading to a discovery of her whereabouts. The disappearance of the missing lady. Hundreds of citizens have searched through woods and secluded places in this vicinity day after day to find the body of the missing lady. It is now thought that Mrs. Farrell was robbed of a large amount of money and jewelry which she had about her person and then murdered and her body concealed. Detective have been at work upon the case for over ten days, and as yet not the least clue has been obtained leading to a discovery of her whereabouts.

THE HESSIAN FLY.

Reports of Damage to Wheat Throughout Kansas.

TURKHA, Kan., Dec. 9.—Parties who have returned from the interior of the State report a very serious report of the condition of the growing wheat, asserting that fully one-half of the crop has been severely injured by the Hessian fly. The damage is attributed to the early sowing wheat. The late sown wheat has not been touched, but the wheat sown before it was far enough advanced to be injured by the Hessian fly. The late sown wheat has not been touched, but the wheat sown before it was far enough advanced to be injured by the Hessian fly.

sets, \$700,000. The company employs several hundred men.

MILWAUKEE, Wis., Dec. 9.—A Racine special to the Daily Journal says the J. I. Case Paper Company, assigned to Charles Lee this morning for the benefit of creditors. Liabilities, \$250,000; assets, \$68,000. All but \$50,000 of this is owing to J. I. Case. The failure is as by manufacturing unobtainable goods—about four years of the company's existence.

A Francis Murphy's Temperance Meeting.

PITTSBURGH, Pa., Dec. 9.—Francis Murphy has inaugurated another temperance revival in this city, which is being conducted in the city hall. Twenty-five hundred signatures to the pledge have been obtained since last Sunday, and at a meeting held Sunday at Music Hall 7,000 persons were present, and at least 2,000 were unable to gain admission. The meeting was the largest ever presided over by Mr. Murphy.

CONGRESSIONAL.

SENATE. WASHINGTON, Dec. 9.—The House bill making temporary provision for the naval service was read for the first time and referred to the Appropriation Committee to-day. Mr. Mitchell (Penn.) read an extract from a letter received from General Grant in reference to the bill introduced by Mr. Mitchell providing a pension for General Grant. The letter stated that General Grant asks him to withdraw the bill as under no circumstances will he accept it. Mr. Mitchell explained the case in regard to the bill. The Committee on Pensions was then discharged from further consideration of the bill.

MR. TOWNSHEND introduces a joint resolution proposing an amendment to the constitution providing that treaties be made by and with the consent of the House as well as by the Senate.

J. J. McREARY,

Notary Public, Licensed Notary, for Mason and adjoining counties. Office at the corner of Main and Third streets, opposite the Mason Hotel.

A Remarkable Case.

Mrs. Henry Ellis, 506 South street, Milwaukee, Wisconsin, writes: "Dr. S. B. HARTMAN & CO., COLUMBUS, O.: I am induced by a sense of duty to the suffering to make a brief statement of your remarkable cure of myself. I was a most miserable sufferer from the various annoying and distressing person, which caused me to be confined to my bed for a long time, being too weak to even bear my weight upon my feet. I was treated by the most reputable physicians in our city, each and all saying they could do nothing for me. I had given up all hope of recovery. In this condition I began to take your MANALIN and PERUNA, and I am most happy to say in three months I was perfectly cured. I am now as strong as ever, and I am sure of my kind."

Mr. G. A. Prochi, New Portage, Summit County, Ohio, writes: "My wife has been sick for about five years. In the first place the doctor called it leucorrhea, and treated it about one year, and she grew worse, and turned to ulceration of the womb, and was treated for that two years, but the grew worse and the doctor gave her up. Then I employed Dr. Underwood, one of the best doctors of Akron, but under his treatment she grew worse. She was paralyzed; she had lost all of the sense of feeling and her eyesight. She could not walk for nearly two years. About six months ago Underwood gave her up. She tried your PERUNA. She has taken three bottles, and it did more good than any other medicine. The paralytic has all been left; her eyesight is getting better. We will continue the use of PERUNA until she is well."

Mr. Isaac Nicodemus, Schellburg, Bedford County, Pa., writes: "I am induced, by a sense of duty to the suffering, to make a brief statement of your remarkable relief, as a sufferer of catarrh in my head and throat. I doctored with one of the best physicians in our place for that dreaded disease, catarrh, and found no relief. But in 1883 I lost my speech, and was not able to do any kind of work for nearly three months. I could neither eat nor sleep. PERUNA and MANALIN did wonders for me. I used three bottles of PERUNA and a sense of duty to the suffering, to make a brief statement of your remarkable relief, as a sufferer of catarrh in my head and throat. I doctored with one of the best physicians in our place for that dreaded disease, catarrh, and found no relief. But in 1883 I lost my speech, and was not able to do any kind of work for nearly three months. I could neither eat nor sleep. PERUNA and MANALIN did wonders for me. I used three bottles of PERUNA and a sense of duty to the suffering, to make a brief statement of your remarkable relief, as a sufferer of catarrh in my head and throat. I doctored with one of the best physicians in our place for that dreaded disease, catarrh, and found no relief. But in 1883 I lost my speech, and was not able to do any kind of work for nearly three months. I could neither eat nor sleep. PERUNA and MANALIN did wonders for me. I used three bottles of PERUNA and a sense of duty to the suffering, to make a brief statement of your remarkable relief, as a sufferer of catarrh in my head and throat.
